

## Motore per il settore del bianco Motor for the white sector

Modello Part number	Volt (V) Voltage (V)	Corrente (A) Current (A)	Watt (W)	Hz	Poli Poles
BA02 ... ..	230	0,95	215/125	50	4
BA07 ... ..	115	2	230/125	50	4
		2,8	300/125	60	4

Sono motori con ventilazione forzata adatti a essere installati in minilavatrici con capacità di carico di circa 3Kg, piccoli elettrodomestici.....

Tramite l'apposita flangia, si ha una montaggio rapido e sicuro grazie ai 6 fori filettati

I motori possono essere alimentati a 230V-50Hz oppure 115V-50/60Hz

E' possibile configurare il motore secondo specifiche del cliente, uscita albero, cavi, ingombri sono tutte variabili

They are motor with forced ventilation, suitable for installation in mini washing machines, with load capacity of about 3Kg, small householders.

Through to special flange, we have a quickand safe mounting, thanks to the 6 threaded holes.

The motors are suitable to 230V 50Hz or 115V 50/60Hz.

It is possible to configure the motor according to customer specification.

Output shaft, cables, dimensions, all are variable
