## Serie WE Ventilatori assiali a rotore esterno

I ventilatori assiali a rotore esterno serie W sono disponibili in diametri da 250 mm a 630 mm, sia in versione aspirante che premente, 2-4-6 poli con tensione di funzionamento per il monofase 230V - 50/60 Hz e per il trifase 230/380V 50/60 Hz, isolati in classe F e protetti termicamente. Sono disponibili portate d'aria da 870 a 11000 m<sup>3</sup>/h a 20 Pa.

*Poichè la nostra produzione viene costantemente migliorata, gli apparecchi potranno differire nei valori e nelle misure illustrate in questa pubblicazione, quindi misure e valori non sono impegnativi*

## WE Series External Rotor Axial Fan

W series axial fans are available from 250mm to 630mm diameter, both sucking and blowing type, 2-4-6 poles 230V - 50/60 Hz (single phase) and 230/380V - 50/60 Hz (three phase), with thermal protection and class F insulation. The air flow is available from 870 to 11000 m<sup>3</sup>/h at 20 Pa.

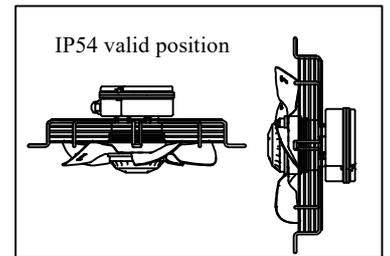

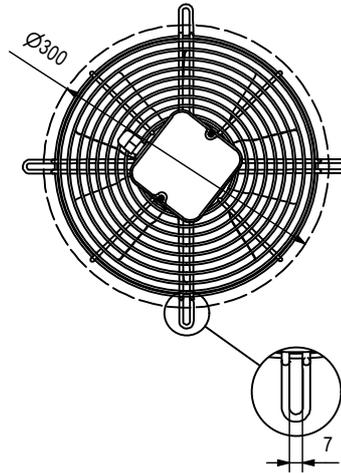

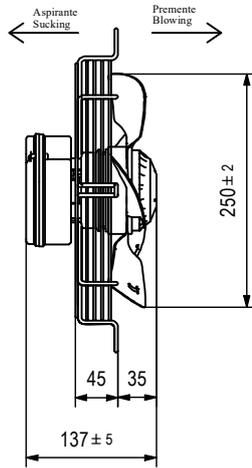

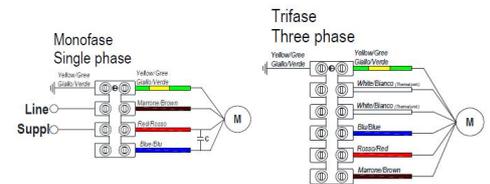

*Due to our constant production improvement, technical devices data here indicated could be modified.*

 I valori di assorbimento si riferiscono alla max efficienza  
 \*Poichè la nostra produzione viene costantemente migliorata, gli apparecchi potranno differire nei valori e nelle misure illustrate in questa pubblicazione, quindi misure e valori non sono impegnativi

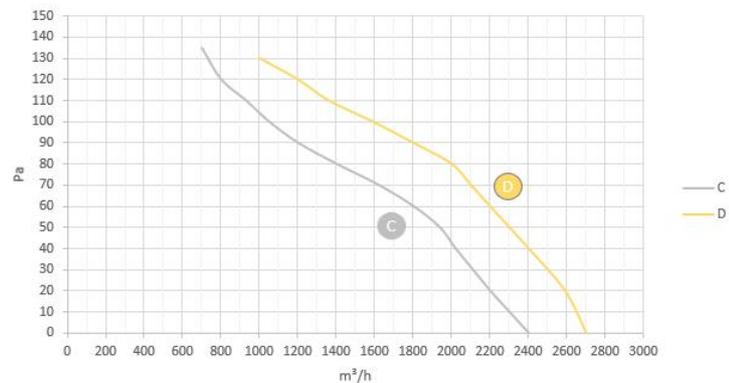

**Operating type:** S1  
**Insulation class:** F  
**Ambient temperature:** -40°C / +60°C  
**Protection class:** IP54\*  
**Material, surface treatment:** rotor with condensation hole, varnished black, humidity proof stator, painted grid  
 Absorption values refer to the max efficiency  
 \*Due to our constant production improvement, technical devices data here indicated could be modified.

Monofase - Single phase

Trifase - Three phase

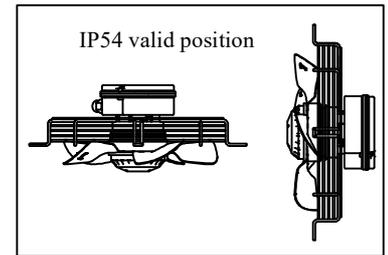

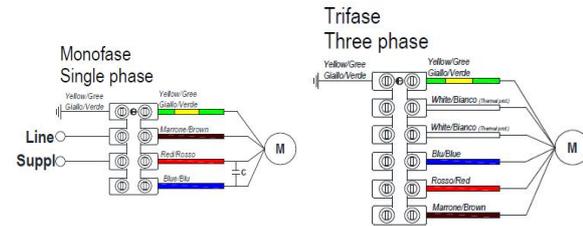

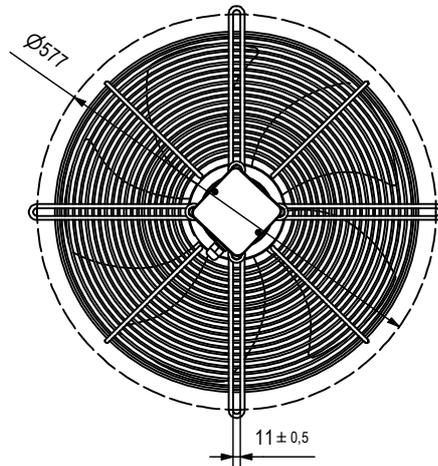

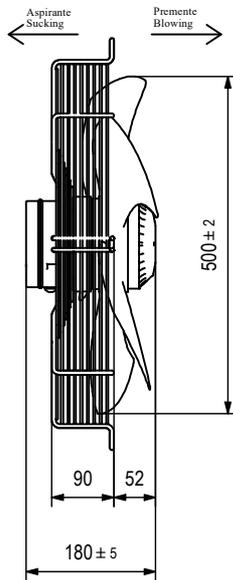

Modello part number	Volt (V)	Frequenza / Frequency (Hz)	Watt in (W)	Corrente / Current (A)	Velocità / Speed (RPM)	Portata / Air flow (m³/h)	Condensatore / Capacitor (µF / V)	Flusso aria / air flow	Db(A)	N	N stat A (%)	Curve
WE5G60(AP)23M451K	230	50	700	3,19	1354	9263	20 / 450	A= aspirante/sucking	74	40,3	33,08	A

**Tipo di servizio:** S1  
**Classe di isolamento:** F  
**Temperatura ambiente:** -40°C / +60°C  
**Classe di protezione:** IP54\*  
**Materiale, trattamento superficiale:** rotore con foro condensa, verniciato nero, statore protetto contro umidità, griglia verniciata  
 I valori di assorbimento si riferiscono alla max efficienza  
 \*Poichè la nostra produzione viene costantemente migliorata, gli apparecchi potranno differire nei valori e nelle misure illustrate in questa pubblicazione, quindi misure e valori non sono impegnativi
